

SOCIAL ACTIVE PROGRAM

Our Social Active program is new approach aimed at getting more family members involved in our club. We feel it is important to provide an active setting for our members and their families to come and socialise and interact with one another, other than playing golf. This would be especially attractive to non-playing members signed up as associate members.

MORE THAN JUST A GOLF CLUB

Activities would include music, art, food, good health, emotional well-being, environment, harmony and culture.

Watch out for our social active program throughout the year, dependent on sponsorship and other funding opportunities.

A NEW CLUB, A NEW WAY

WHAT'S OUR PLAN?

It is our plan to deliver and manage a program of golf that seeks to promote and foster the game of golf among Aboriginal people and associates to be able to participate in and enjoy. By that, we want to be an inclusive club for members who share our vision to increase participation rates of people who normally don't play golf and are underrepresented in the overall involvement in the game of golf.

We seek to do this by achieving three things:

1. We want to run a dynamic Club Competition program,
2. We want to run a complementary Social Active program, and
3. We want to run a leading Academy of Golf program.

50 / 50 CLUB

Ultimately, we want our club to be 50% male and 50% female.
